		(3a) The right to the protection of personal data is not an absolute right; it must be considered in relation to its function in society and be balanced with other fundamental rights, in accordance with the principle of proportionality. This Regulation respects all fundamental rights and observes the principles recognised in the Charter of Fundamental Rights of the European Union as enshrined in the Treaties, notably the right to respect for private and family life, home and communications, the right to the protection of personal data, the freedom of thought,

(4) The economic and social integration resulting from the functioning of the internal market has led to a substantial increase in cross-border flows. The exchange of data between economic and social, public and private actors across the Union increased. National authorities in the Member States are being called upon by Union law to co-operate and exchange personal data so as to be able to perform their duties or carry out tasks on behalf of an authority in another Member State. (7) The objectives and principles of Directive 95/46/EC remain sound, but it has not prevented fragmentation in the way data protection is implemented across the Union, legal uncertainty and a widespread public perception that there are significant risks for the protection of individuals associated notably with online activity. Differences in the level of protection of the rights and freedoms of individuals, notably to the right to the protection of personal data, with regard to the processing of personal data afforded in the Member States may prevent the free flow of personal data throughout the Union. These differences may therefore constitute an obstacle to the pursuit of economic activities at the level of the Union, distort competition and impede authorities in the discharge of their responsibilities under Union law. This difference in levels of protection is due to the existence of differences in the implementation and application of Directive 95/46/EC. 		technological knowledge a new technology is used on a large scale as well as to other processing operations which result in a high risk for the rights and freedoms of data subjects, in particular where those operations render it more difficult for data subjects to exercise their rights. A data protection impact assessment should also be made in cases where data are processed for taking decisions regarding specific individuals following any systematic and extensive evaluation of personal aspects relating to natural persons based on profiling those data or following the processing of special categories of personal data, biometric data, or data on criminal convictions and offences or related security measures. A data protection impact assessment is equally required for monitoring publicly accessible areas on a large scale, especially when using optic-electronic devices or for any other operations where the competent supervisory authority considers that the processing is	

		likely to result in a high risk for the rights and freedoms of data subjects, in particular because they prevent data subjects from exercising a right or using a service or a contract, or because they are carried out systematically on a large scale. The processing of personal data irrespective of the volume or the nature of the data, should not be considered as being on a large scale, if the processing of these data is protected by professional secrecy, such as the processing of personal data from patients or clients by an individual doctor, health care professional, hospital or attorney. In these cases a data protection impact assessment should not be mandatory.	
	Amendment 44		
	(71a) Impact assessments are the essential core of any sustainable data protection framework, making sure that businesses are aware from the outset of all possible consequences of their data processing operations. If		

	impact assessments are thorough, the likelihood of any data breach or privacy-intrusive operation can be fundamentally limited. Data protection impact assessments should consequently have regard to the entire lifecycle management of personal data from collection to processing to deletion, describing in detail the envisaged processing operations, the risks to the rights and freedoms of data subjects, the measures envisaged to address the risks, safeguards, security measures and mechanisms to ensure compliance with ~~the~~ this Rregulation.		
	Amendment 45		
	(71b) Controllers should focus on the protection of personal data throughout the entire data lifecycle from collection to processing to deletion by investing from the outset in a sustainable data management framework and by following it up with a comprehensive compliance mechanism.		

(72) There are circumstances under which it may be sensible and economic that the subject of a data protection impact assessment should be broader than a single project, for example where public authorities or bodies intend to establish a common application or processing platform or where several controllers plan to introduce a common application or processing environment across an industry sector or segment or for a widely used horizontal activity. (74) Where a data protection impact assessment indicates that processing operations involve a high degree of specific risks to the rights and freedoms of data subjects, such as excluding individuals from their right, or by the use of specific new technologies, the supervisory authority should be consulted, prior to the start of operations, on a risky processing which might not be in compliance with this Regulation, and to make proposals to remedy such situation. 	Amendment 48		
	(74a) Impact assessments can only be of help if controllers make sure that they comply with the promises originally laid down in them. Data controllers should therefore conduct periodic data protection compliance reviews demonstrating that the data processing mechanisms in place comply with assurances made in the data protection impact assessment. It should further demonstrate the ability of the data controller to comply with the autonomous choices of data subjects. In addition, in case the review finds compliance inconsistencies, it should highlight these and present recommendations on how to achieve full compliance.

		(121a) This Regulation allows the principle of public access to official documents to be taken into account when applying the	

		provisions set out in this Regulation. Public access to official documents may be considered as a public interest. Personal data in documents held by a public authority or a public body should be able to be publicly disclosed by this authority or body if the disclosure is provided for by Union law or Member State law to which the public authority or public body is subject. Such laws should reconcile public access to official documents and the reuse of public sector information with the right to the protection of personal data and may therefore provide for the necessary derogations from the rules of this regulation. The reference to public authorities and bodies should in this context include all authorities or other bodies covered by Member State law on public access to documents. Directive 2003/98/EC of the European Parliament and of the Council of 17 November 2003 on the re-use of public sector information leaves intact and in no way affects the level of protection of individuals	

		with regard to the processing of personal data under the provisions of Union and national law, and in particular does not alter the obligations and rights set out in this Regulation. In particular, that Directive should not apply to documents access to which is excluded or restricted by virtue of the access regimes on the grounds of protection of personal data, and parts of documents accessible by virtue of those regimes which contain personal data the re-use of which has been defined by law as being incompatible with the law concerning the protection of individuals with regard to the processing of personal data[51].

	Standardised information policies		
	1. Where personal data relating to a data subject are collected, the controller shall provide the data subject with the following particulars before providing information pursuant to Article 14:		

	(a) whether personal data are collected beyond the minimum necessary for each specific purpose of the processing;		
	(b) whether personal data are retained beyond the minimum necessary for each specific purpose of the processing;		
	(c) whether personal data are processed for purposes other than the purposes for which they were collected;		
	(d) whether personal data are disseminated to commercial third parties;		
	(e) whether personal data are sold or rented out;		
	(f) whether personal data are retained in encrypted form.		
	2. The particulars referred to in paragraph 1 shall be presented pursuant to Annex to this Regulation in an aligned tabular format, using text and symbols, in the following three columns:		

	(a) the first column depicts graphical forms symbolising those particulars;		
	(b) the second column contains essential information describing those particulars;		
	(c) the third column depicts graphical forms indicating whether a specific particular is met.		
	3. The information referred to in paragraphs 1 and 2 shall be presented in an easily visible and clearly legible way and shall appear in a language easily understood by the consumers of the Member States to whom the information is provided. Where the particulars are presented electronically, they shall be machine readable.		
	4. Additional particulars shall not be provided. Detailed explanations or further remarks regarding the particulars referred to in paragraph 1 may be provided together with the other information requirements pursuant to Article 14.

[190] ***DE, EE, PT, SE, SI, FI and UK scrutiny reservation. EE, FR, NL, RO and SE reservation on the applicability to the public sector. Whereas some Member States have welcomed the proposal to introduce a right to be forgotten (AT, EE, FR, IE); other delegations were more sceptical as to the feasibility of introducing a right which would go beyond the right to obtain from the controller the erasure of one's own personal data (DE, DK, ES). The difficulties flowing from the household exception (UK), to apply such right to personal data posted on social media were highlighted (BE, DE, FR), but also the impossibility to apply such right to 'paper/offline' data was stressed (EE, LU, SI). Some delegations (DE, ES) also pointed to the possible externalities of such right when applied with fraudulent intent (e.g. when applying it to the financial sector). Several delegations referred to the challenge to make data subjects active in an online environment behave responsibly (DE, LU and UK) and queried whether the creation of such a right would not be counterproductive to the realisation of this challenge, by creating unreasonable expectations as to the possibilities of erasing data (DK, LU and UK). Some delegations thought that the right to be forgotten was rather an element of the right to privacy than part of data protection and should be balanced against the right to remember and access to information sources as part of the freedom of expression (DE, ES, LU, NL, SI, PT and UK). It was pointed out that the possibility for Member States to restrict the right to be forgotten under Article 21 where it interferes with the freedom of expression is not sufficient to allay all concerns in that regard as it would be difficult for controllers to make complex determinations about the balance with the freedom of expression, especially in view of the stiff sanctions provided in Article 79 (UK). In general several delegations (CZ, DE, FR) stressed the need for further examining the relationship between the right to be forgotten and other data protection rights. The Commission emphasised that its proposal was in no way meant to be a limitation of the freedom of expression. The inherent problems in enforcing such right in a globalised world outside the EU were cited as well as the possible consequences for the competitive position of EU companies linked thereto (BE, AT, LV, LU, NL, SE and SI).***

193 ***DE pointed to the difficulties in determining who is the controller in respect of data who are copied/made available by other controllers (e.g. a search engine) than the initial controller (e.g. a newspaper). AT opined that the exercise of the right to be forgotten would have take place in a gradual approach, first against the initial controller and subsequently against the 'secondary' controllers. ES referred to the problem of initial controllers that have disappeared and thought that in such cases the right to be forgotten could immediately be exercised against the 'secondary controllers' ES suggested adding in paragraph 2: 'Where the controller who permitted access to the personal data has disappeared, ceased to exist or cannot be contacted by the data subject for other reasons, the data subject shall have the right to have other data controllers delete any link to copies or replications thereof'. The Commission, however, replied that the right to be forgotten could not be exercised against journals exercising freedom of expression. According to the Commission, the indexation of personal data by search engines is a processing activity not protected by the freedom of expression.***

[195] ***ES prefers referring to 'expressly or tacitly allowing third parties access to'. IE thought it would be more realistic to oblige controllers to erase personal data which are under their control, or reasonably accessible to them in the ordinary course of business, i.e. within the control of those with whom they have contractual and business relations. BE, supported by IE and LU, also remarked that the E-Commerce Directive should be taken into account (e.g. through a reference in a recital) and asked whether this proposed liability did not violate the exemption for information society services provided in that Directive (Article 12 of Directive 2000/31/EC of 8 June 2000), but COM replied there was no contradiction. LU pointed to a risk of obliging controllers in an online context to monitor all data traffic, which would be contrary to the principle of data minimization and in breach with the prohibition in Article 15 of the E-Commerce Directive to monitor transmitted information.***

197 ***LU queried why the reference to all reasonable steps had not been inserted in paragraph 1 as well and SE, supported by DK, suggested clarifying it in a recital. COM replied that paragraph 1 expressed a results obligation whereas paragraph 2 was only an obligation to use one's best efforts. ES thought the term should rather be 'proportionate steps'. DE, ES and BG questioned the scope of this term. ES queried whether there was a duty on controllers to act proactively with a view to possible exercise of the right to be forgotten. DE warned against the 'chilling effect' such obligation might have on the exercise of the freedom of expression.***

198 ***BE, supported by ES and FR, suggested referring to 'known' controllers (or third parties).***

199 ***BE and ES queried whether this was also possible for the offline world and BE suggested to clearly distinguish the obligations of controllers between the online and offline world. Several Member States (CZ, DE, LU, NL, PL, PT, SE and SI) had doubts on the enforceability of this rule.***

200 ***DE queried whether these exceptions also applied to the abstention from further dissemination of personal data. AT and DE pointed out that Article 6 contained an absolute obligation to erase data in the cases listed in that article and considered that it was therefore illogical to provide for exception in this paragraph.***

202 ***In general DE thought it was a strange legal construct to lay down exceptions to EU obligations by reference to national law. DK and SI were also critical in this regard. UK thought there should be an exception for creditworthiness and credit scoring, which is needed to facilitate responsible lending, as well as for judicial proceedings. IT suggested inserting a reference to Article 21 (1).***

204 ***DK queried whether this exception implied that a doctor could refuse to erase a patient's personal data notwithstanding an explicit request to that end from the latter. Thus, DE was opposed to a general obligation to log all the disclosures to recipients. DE also pointed out that the obligation should exclude cases where legitimate interests of the data subject would be harmed by a further communication to the recipients, that is not the case if the recipient would for the first time learn negative information about the data subject in which he has no justified interest. 210 ***UK reservation: while it supports the concept of data portability in principle, the UK considers it not within scope of data protection, but in consumer or competition law. Several other delegations (DK, DE, FR, IE, NL, PL and SE) also wondered whether this was not rather a rule of competition law and/or intellectual property law or how it related to these fields of law. Therefore the UK thinks this article should be deleted. NL and CZ thought its scope should be limited to social media. DE, DK and UK pointed to the risks for the competitive positions of companies if they were to be obliged to apply this rule unqualifiedly and referred to/raises serious issues about intellectual property and commercial confidentiality for all controllers. DE, FI, SE and UK also underscored the considerable administrative burdens this article would imply. DE and FR referred to services, such as health services where the exercise of the right to data portability might endanger on-going research or the continuity of the service. Reference was also made to an increased risk of fraud as it may be used to fraudulently obtain the data of innocent data subjects (UK). DE, ES, FR, HU, IE and PL were in principle supportive of this right. SK thought that the article was unenforceable and DE referred to the difficulty/impossibility to apply this right in 'multi-data subject' cases where a single 'copy' would contain data from several data subjects, who might not necessarily agree or even be known or could not be contacted. BE, CZ and RO thought that the exclusion of the public sector should be mentioned not only in recital 55, but also here (ES was opposed thereto).***

[220] ***SE scrutiny reservation: SE and NL queried the need to put the burden of proof on the controller regarding the existence of compelling legitimate grounds. DE and FI queried the need for new criteria, other than those from the 1995 Directive. COM stressed that the link with the 'particular situation' was made in order to avoid whimsical objections. CZ also stated that this risked making processing of data an exceptional situation due to the heavy burden of proof. NL and SE queried whether the right would also allow objecting to any processing by third parties.***

[221] ***ES proposed to reformulate the last part of this paragraph as follows: 'shall inform the data subject of the compelling legitimate reasons applicable as referred to in paragraph 1 above, or otherwise shall no longer use or otherwise process the personal data concerned'.***

[222] ***UK proposed adding ' for demonstrating compliance with the obligations imposed under this instrument'. This might also cover the concern raised by DE that a controller should still be able to process data for the execution of a contract if the data were obtained further to a contractual legal basis. CZ, DK, EE, IT, SE and UK have likewise emphasised the need for allowing to demonstrate compliance. CZ and SK also referred to the possibility of further processing on other grounds.***

[224] ***At the request of several delegations (FR, LT, PT), COM confirmed that this paragraph was not meant to create an opt-in system and that the E-Privacy Directive would remain unaffected. DE feels there is a need to clarify the relationship between Article 19(2) on the one hand and Article 6(1)(f) and Article 6(4) on the other. It can be concluded from the right to object that direct marketing without consent is possible on the basis of a weighing of interests. On the other hand, Article 6(1)(f) no longer refers to the interests of third parties and Article 6(4) also no longer refers to Article 6(1)(f) in regard to data processing which changes the original purpose. DE is therefore of the opinion that this also needs to be clarified in view of online advertising and Directive 2002/58/EC and Article 89 of the Proposal for a Regulation.***

	Respect to Risk		
	1. The controller, or where applicable the processor, shall carry out a risk analysis of the potential impact of the intended data processing on the rights and freedoms of the data subjects, assessing whether its processing operations are likely to present specific risks..		
	2. The following processing operations are likely to present specific risks:		
	(a) processing of personal data relating to more than 5000 data subjects during any consecutive 12-month period;		
	(b) processing of special categories of personal data as referred to in Article 9(1), location data or data on children or employees in large		

	scale filing systems;		
	(c) profiling on which measures are based that produce legal effects concerning the individual or similarly significantly affect the individual;		
	(d) processing of personal data for the provision of health care, epidemiological researches, or surveys of mental or infectious diseases, where the data are processed for taking measures or decisions regarding specific individuals on a large scale;		
	(e) automated monitoring of publicly accessible areas on a large scale;		
	(f) other processing operations for which the consultation of the data protection officer or supervisory authority is required pursuant to point (b) of Article 34(2);		
	(g) where a personal data breach would likely adversely affect the protection of the personal data, the privacy, the rights or the legitimate		

	interests of the data subject;		
	(h) the core activities of the controller or the processor consist of processing operations which, by virtue of their nature, their scope and/or their purposes, require regular and systematic monitoring of data subjects;

[279] ***In light of the fact that the public interest exception would in many cases be the main ground warranting an international transfer of personal data, some delegations (CZ, DE, LV, UK) queried whether the 'old' adequacy principle/test should still maintained and set out in such detail, as it would in practice not be applied in that many cases. DE in particular thought that the manifold exceptions emptied the adequacy rule of its meaning. Whilst they did not disagree with the goal of providing protection against transfer of personal data to third countries, it doubted whether the adequacy principle was the right procedure therefore, in view of the many practical and political difficulties (the latter especially regarding the risk of a negative adequacy decision, cf. DE, FR, UK). The feasibility of maintaining an adequacy-test was also questioned with reference to the massive flows of personal data in in the context of cloud computing: BG, DE, FR, IT, NL, SK and UK. FR and DE asked whether a transfer of data in the context of cloud computing or the disclosure of personal data on the internet constitutes an international transfer of data. DE also thought that the Regulation should create a legal framework for 'Safe Harbor-like' arrangements under which certain guarantees to which companies in a third country have subscribed on a voluntary basis are monitored by the public authorities of that country. The applicability to the public sector of the rules set out in this Chapter was questioned (EE), as well as the delimitation to the scope of proposed Directive (FR). The impact of this Chapter on existing Member State agreements was raised by several delegations (FR, PL).***

[280] ***NL and UK pointed out that under the 1995 Data Protection Directive the controller who wants to transfer data is the first one to assess whether this possible in under the applicable (EU) law and they would like to maintain this basic principle, which appears to have disappeared in the Commission proposal.***

[281] ***DE asked which law would apply to data transferred controllers established in third countries that come within the ambit of Article 3(2); namely whether this would be EU law in accordance with that provision.***

	Article 54a (new)		
	Lead Authority		
	1. Where the processing of personal data takes place in the context of the activities of an establishment of a controller or a processor in the Union, and the controller or processor is established in more than one Member State, or where personal data of the residents of several Member States are processed, the supervisory authority of the main establishment of the controller or processor shall act as the lead authority responsible for the supervision of the processing activities of the controller or the processor in all Member States, in accordance with the provisions of Chapter VII of this Regulation.		
	2. The lead ~~supervisory~~ authority shall take appropriate measures for the supervision of the processing activities of the controller or processor for which it is		

	responsible only after consulting all other competent supervisory authorities within the meaning of paragraph 1 of Article 51(1) in an endeavour to reach a consensus. For that purpose it shall in particular submit any relevant information and consult the other authorities before it adopts a measure intended to produce legal effects vis-à-vis a controller or a processor within the meaning of ~~paragraph 1 of~~ Article 51(1). The lead authority shall take the utmost account of the opinions of the authorities involved. The lead authority shall be the sole authority empowered to decide on measures intended to produce legal effects as regards the processing activities of the controller or processor for which it is responsible		
	3. The European Data Protection Board shall, at the request of a competent supervisory authority, issue an opinion on the identification of the lead authority responsible for a controller or processor, in cases where:		

	(a) it is unclear from the facts of the case where the main establishment of the controller or processor is located; or		
	(b) the competent authorities do not agree on which supervisory authority shall act as lead authority; or		
	(c) the controller is not established in the Union, and residents of different Member States are affected by processing operations within the scope of this Regulation.		
	3a. Where the controller exercises also activities as a processor, the supervisory authority of the main establishment of the controller shall act as lead authority for the supervision of processing activities.		
	4. The European Data Protection Board may decide on the identification of the lead authority.

446 ***DE, EE, ES, PT and SI scrutiny reservation. FI and SI reservation. COM reservation on replacing 'shall' by 'may' and the deletion of amounts and percentages in paragraphs 1, 2 and 3. DE wanted the risk-based approach to be made clearer. DE thought that proportionality was important because Article 79a concerned fundamental rights/rule of law and deemed it disproportionate that a supervisory authority could impose a fine that the data subject was unaware of. DE said that it was necessary to set out the fines clearly and that the one-stop shop principle did not allow for exceptions being set out in national law. IE thought e gravity of offences was not sufficiently illustrated, e.g. infringement in para. 3(m), which according to IE is the most serious one. FR reservation: the strictness of the text may impinge on the independence of the DPA.***

447 ***A majority of Member States (BE, CY DE, EE, ES, FI, IT, LV, LU, MT and NL) appear to be in favour of different scales of sanctions. COM referred to the Market Abuse Regulation with three levels of fines. DK, HU, IE, SE and UK were opposed to maintaining different sanctions scales. FR and PL did not favour it, but could accept it.***

448 ***EE did not consider it appropriate to set out sanctions in percentage because the sanction was not predictable.. PT considered that there should be minimum penalties for a natural person and that for SMEs and micro enterprises the volume of the business should not be looked at when applying the fines (this factor should only be applicable for multinationals). PL thought that administrative fines should be implemented in the same way in all MS. PL said that the fines should be flexible and high enough to represent a deterrent, also for overseas companies***

449 ***UK commented that turnover was used in competition law and asked whether the harm was the same here. EE asked how the annual turnover was connected to the sanction. SI thought that compared to competition law where the damage concerned the society as a whole, data protection concerned private infringements. COM said that both competition law and data protection concern economic values, whereas data protection protects values of the data subject.***

	1a. The purpose of processing such data must be linked to the reason it was collected for and stay within the context of employment. Profiling or use for secondary purposes shall not be allowed.		
	1b. Consent of an employee shall not provide a legal basis for the processing of data by the employer when the consent has not been given freely.		
	1c. Notwithstanding the other provisions of this Regulation, the legal provisions of Member States referred to in paragraph 1 shall include at least the following minimum standards:		
	(a) the processing of employee data without the employees' knowledge shall not be permitted. Notwithstanding the first sentence, Member States may, by law, provide for the admissibility of this practice, by setting appropriate deadlines for the deletion of data, providing there exists a suspicion based on factual indications that must be documented that the		

	employee has committed a crime or serious dereliction of duty in the employment context, providing also the collection of data is necessary to clarify the matter and providing finally the nature and extent of this data collection are necessary and proportionate to the purpose for which it is intended. The privacy and private lives of employees shall be protected at all times. The investigation shall be carried out by the competent authority;		
	(b) the open optical-electronic and/or open acoustic-electronic monitoring of parts of an undertaking which are not accessible to the public and are used primarily by employees for private activities, especially in bathrooms, changing rooms, rest areas, and bedrooms, shall be prohibited. Clandestine surveillance shall be inadmissible under all circumstances;		
	(c) where undertakings or authorities collect and process personal data in the context of medical examinations and/or		

	aptitude tests, they must explain to the applicant or employee beforehand the purpose for which these data are being used, and ensure that afterwards they are provided with ~~these~~ those data together with the results, and that they receive an explanation of their significance on request. Data collection for the purpose of genetic testing and analyses shall be prohibited as a matter of principle;		
	(d) whether and to what extent the use of telephone, e-mail, internet and other telecommunications services shall also be permitted for private use may be regulated by collective agreement. Where there is no regulation by collective agreement, the employer shall reach an agreement on this matter directly with the employee. In so far as private use is permitted, the processing of accumulated traffic data shall be permitted in particular to ensure data security, to ensure the proper operation of telecommunications networks and telecommunications services and		

	for billing purposes.		
	Notwithstanding the third sentence, Member States may, by law, provide for the admissibility of this practice, by setting appropriate deadlines for the deletion of data, providing there exists a suspicion based on factual indications that must be documented that the employee has committed a crime or serious dereliction of duty in the employment context, providing also the collection of data is necessary to clarify the matter and providing finally the nature and extent of this data collection are necessary and proportionate to the purpose for which it is intended. The privacy and private lives of employees shall be protected at all times. The investigation shall be carried out by the competent authority;		
	(e) workers' personal data, especially sensitive data such as political orientation and membership of and activities in trade unions, may under no circumstances be used to put workers on so-called 'blacklists',		

	and to vet or bar them from future employment. The processing, the use in the employment context, the drawing-up and passing-on of blacklists of employees or other forms of discrimination shall be prohibited. Member States shall conduct checks and adopt adequate sanctions in accordance with Article 79(6) to ensure effective implementation of this point.		
	1d. Transmission and processing of personal employee data between legally independent undertakings within a group of undertakings and with professionals providing legal and tax advice shall be permitted, providing it is relevant to the operation of the business and is used for the conduct of specific operations or administrative procedures and is not contrary to the interests and fundamental rights of the person concerned which are worthy of protection. Where employee data are transmitted to a third country and/or to an international organization, Chapter V shall apply.
